---

Rene,  
We do not have a copy of the AMEC presentation, and as I recall they touched on the source area issues but the information was very limited. We forwarded to Kristine a copy of the March 28, 2003 Final Groundwater Characterization Report (while the title is "final" there has been a lot of downgradient work done since this report). Cross sections in this report extend back to the source area.

There are two other reports that might help:  
March 3, 2003 Final Source Area Soils Characterization Report  
August 27, 2005 draft NAPL Evaluation Report  
I will forward CD copies of these to you Rene, please pass on to Kristine for distribution to others.

Note that there is no single point of release that defines the "source area." Releases occurred throughout the RP property from past waste management practices, including releases to the Lake Area Drainage Ditch which flowed into what is now the remnant West Doane Lake. The "source area" may be best defined by the area where NAPL is present. The NAPL report can help you with that.

Thanks,

Subject: Re: RPAC Documents

Matt,  
I have been looking a bit through the CDs and while there is much data I do not find much on the contamination of the source areas.

When we met with them a while back they had given a presentation for the proposed remedial work which did have that type of source area contamination in figures or cross-sections. They did NOT provide a copy of that presentation to us. Did you ever get a copy of that report or other similar ones which you can send? Or do you have another report which I should go for that information?

Thanks, Rene

RPAC Documents

Kristine,

I am having the following Rhone-Poulenc workplans and reports copied and forwarded to you. Please distribute them to the EPA team.

If anyone else would like copies for reference please let me know.

August 8, 2006, AMEC, Winter 2006 Groundwater Data Submittal RP-Portland Site  
December 21, 2005, AMEC, Spring 2005 Post Characterization Groundwater Event Technical Memorandum, RP-Portland Site  
July 7, 2005, AMEC, Draft Stage 1 Source Control Evaluation Work Plan RP-Portland Site  
Nov. 1, 2004, AMEC, Spring 2004 Post-Characterization Groundwater Technical Memorandum RP-Portland Site  
March 28, 2003, AMEC, Final Groundwater Characterization Report, RP-Portland Site
